"To stand at the forefront of innovation through research."

Education

JBNU (Jeonbuk National University)

Jeonju, S.Korea

B.S. IN COMPUTER SCIENCE AND ENGINEERING

Mar. 2019 - Feb. 2027 (Expected)

- Total GPA of 4.21 / 4.5, Major GPA 4.37 / 4.5 (class rank 3 / 54)
- Coursework: Computer Graphics, Computer Vision, Machine Learning, Deep Learning, Linear Algebra, Probability and Statistics
- Research Interests: Neural rendering for immersive 3D content, character and facial modeling/animation, mesh deformation, and interactive XR/AR visual media.

Experience

Vision Intelligence Lab (Prof. Se-Ho Lee)

Jeonju, S.Korea

UNDERGRADUATE RESEARCHER

Apr. 2025 - PRESENT

- Conducting research on **geometry-aware style transfer in 3D Gaussian Splatting**, designing a decoupled optimization framework for color and geometry updates.
- Reproduced and enhanced a **latent diffusion-based image relighting model**, improving lighting consistency across diverse illumination conditions.

Naver BoostCamp AI Tech 7th - CV Track

Seoul, S.Korea

PARTICIPANT

Aug. 2024 - Feb. 2025

- Completed an intensive 6-month program focused on **Computer Vision and Deep Learning**, covering advanced topics such as object detection, OCR, and semantic segmentation.
- Participated in **4 AI challenges** (Classification, Detection, OCR, Segmentation), achieving up to **1st place (1/24)** by leading model optimization and data augmentation strategies.

Google Machine Learning BoostCamp 5th

Seoul, S.Korea

PARTICIPANT

Jul. 2024 - Oct. 2024

- Completed the **Coursera Machine Learning Specialization** by *Andrew Ng*, focusing on deep learning theory and practical applications.
- Ranked in the **top 5%** in the **Kaggle Playground Competition**, demonstrating strong model optimization and feature engineering skills.
- Participated in the **Gemma Fine-Tuning Sprint** and developed a specialized chatbot service, "*Your Gateway to the Cosmos*," designed for answering astronomy-related questions.

WWD Korea Magazine & Gallerie X

Seoul, S.Korea

VISUAL MEDIA ART DESIGNER

Mar. 2023 - Dec. 2023

- Oversaw the planning and production of the **NewJeans** main promotional video for Seoul Fashion Week 24 F/W, managing 3D visual direction and final editing.
- Directed large-scale media art productions including the **Starfield COEX Mall** exhibition and **MAMA 2023** stage visuals for Dynamic Duo.
- Focused on stylized character motion, lighting, and spatial composition for large-format displays, bridging visual storytelling and computational aesthetics.

WWD KOREA MAGAZINE

Seoul, S.Korea

FREELANCE 3D GRAPHIC DESIGNER

Mar. 2023 - Nov. 2023

- Collaborated with **WWD Korea** on the "**Runway to Seoul**" project, producing interactive tech booth content and stage visuals.
- Participated as a **3D AR Exhibition Designer**, creating immersive digital exhibition environments.
- Led **Innisfree 3D visual set** planning and design, delivering high-quality visual storytelling for brand marketing.
- Collaborated with **VMOD 3D Library** and the **World's Largest Digital Fabric Library (2023)**, contributing to digital fabric visualization and 3D asset creation for virtual fashion environments.

Publications

Geometry-Aware Style Transfer in 3D Gaussian Splatting (in preparation for CVPR 2026)

Jeonju, S.Korea

Co-FIRST AUTHOR

May. 2025 - PRESENT

- Designed a **decoupled optimization framework** separating color and geometry updates, improving structural fidelity in stylized 3D scenes.
- Introduced **contrastive feature matching** across color, depth, and edge cues to enhance geometric consistency.
- Implemented the complete pipeline end-to-end (*PyTorch, CUDA, 3D Gaussian Splatting*).

Awards

AWARDS

2024	Top 3% (89 / 2739 Teams) , ISIC 2024 – Skin Cancer Detection with 3D-TBP (Research Track, Kaggle)	<i>Kaggle</i>
2024	Top 2% (25 / 2234 Teams) , Binary Classification of Insurance Cross Selling (Playground Series)	<i>Kaggle</i>
2024	Top 25% , K-water AI Competition – Water Pipeline Anomaly Detection	<i>Dacon</i>
2024	Top 14% , Low-Resolution Bird Species Classification AI Competition	<i>Dacon</i>
2023	Excellence Award , 1st Korea NFT Digital Art Exhibition (National Digital Media Art Award)	<i>Maeil Business Newspaper, S.Korea</i>

Skills

Graphic Design	3D Modeling, Texturing, Character Rigging, Animation, Composition
Design Tools	CLO 3D, DAZ 3D, Cinema 4D, Blender, Adobe After Effects
Programming	Python, C/C++, CUDA, Java
Deep Learning	PyTorch, Scikit-learn, Keras, TensorFlow
